TRANS-URBAN-EU-CHINA

Transition towards urban sustainability through socially integrative cities in the EU and in China

WP5 in June-July 2020

- Planning a series of EU-China experts webinars between TRANS-URBAN work packages and stakeholders at ULLs.
- Developing D5.5 based on existing work done related and future activities to Wuhan, Tianjin, Xiong'An, Jingdezhen and Chengdu and European cases (Macerata and Prato)
- Nordic Edge expo China Session: Urban Living Lab an Effective Tool for Social Inclusive City Transformation in Nordic and China on 24th Sep
- UN Habitat (China) Digital summer school
- WP 5 book chapter revision (*Towards Socially Integrative Cities Perspectives on Urban Sustainability in Europe and China*)
- Reference cities and dissemination and brokerage with stakeholders

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 770141.

TRANS-URBAN-EU-CHINA

Transition towards urban sustainability through socially integrative cities in the EU and in China

EU-China experts webinars between TRANS-URBAN work packages and stakeholders at ULLs.

EU-China expert workshops (webinars)

- Community building and placemaking in neighborhoods (WP1) (due in Sep)
- Bridging the planning-implementation gap in eco and smart cities (WP2) (on 26th August)
- Land use planning and land management (WP3) (due in Oct)
- Integrated transition pathways towards sustainable urban planning and governance (WP4) (done in July)

ISCI will co-organize the webinars and will contribute:

- Record presentations and upload on the CoC
- Interviews with participants re. their reactions to what they saw and heard
- Uploading background material
- Suggestions for the future
- Opportunities for future projects
- Recommendations for more reading
- Short videos with reactions to presentations

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 770141.

TRANS-URBAN-EU-CHINA

Transition towards urban sustainability through socially integrative cities in the EU and in China

EU-China expert workshops (webinars) with Wuhan stakeholders on Bridging the planning-implementation gap in eco and smart cities (WP2)

Concept:

In the EU-China expert workshop to which you are invited, the EU and China experts will present the practical tools and mechanisms for the development of sustainable cities, integrative planning bridging the planning and implementation gap across EU and China. The workshop will invite participants to join a discussion of two good practice scenarios, in which the tools and mechanisms can be applied in Chinese context.

As expert stakeholder of Wuhan, you will be asked to provide feedbacks, validation, ideas and suggestions for the improvement of tools and mechanisms.

Participants:

- TRANS-URBAN Partners
- Representatives of City Administration -Municipalities
- Representatives of the operational District Development and Management
- Local Stakeholders involved in the implementation of urban developments: architects, transportation planners, civil engineers, landscape architects, etc.
- Developers
- Local NGOs, local community representatives, etc.

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 770141.

TRANS-URBAN-EU-CHINA

Transition towards urban sustainability through socially integrative cities

EU-China expert workshops (webinars) with Wuhan stakeholders on Bridging the planning-implementation gap in eco and smart cities (WP2)

Time: 26th Oct 2020

Program

09.00-09.10 **Welcome and opening remarks** by prof Jianming Cai, IGSNRR China Academy of Science (CAS)

09.10-09.30 Presentation: **Practical tools and mechanisms for the development of sustainable cities, integrative planning and implementation**, by Dr Hans-Martin Neumann, Senior researcher engineer/Digital resilience cities, Austrian Institute of Technology (AIT)

09.30-10.30 Panel discussion: **Feedback, validation, ideas and suggestions for the improvement of practical tools and mechanisms**, by the Urban Living Lab expert stakeholders: (the list of panellists in the process of confirmation)

10.30-10.45 **Questions and free discussion**

10.45-11.00 **Conclusion remarks** by Prof. Bernhard Müller, project coordinator of TRANS-URBAN-EU-CHINA (TBC)

The material reflects only the authors' views. The European Union is not liable for any use that may be made of the information contained therein.

TRANS-URBAN-EU-CHINA

Transition towards urban sustainability through socially integrative cities in the EU and in China

EU-China ULL workshop and interviews to ULL stakeholders on Community building and placemaking in neighborhoods (WP1)

WP1 has successfully organized ULL workshop in Wenjiang (Chengdu) last year as well as the workshop in Macerata in 2018. After the discussion with WP1, WP5 will help WP1 for its online workshop with the stakeholders in Prato in autumn. And WP5 will invite stakeholders of Wenjiang (Chengdu) and the other ULLs in China together with the stakeholders from Macerata and Prato to join an online interviews on the implementing the D1.3 Recommendations from social actions to design effects.

TRANS-URBAN-EU-CHINA

Transition towards urban sustainability through socially integrative cities in the EU and in China

WP5 in June-July 2020

D5.5 Urban Living Lab recommendations

Type of deliverable: report

Deadline of report M33 Sep 2020

Deliverable outline:

- Derive recommendations for using ULLs to create socially integrative cities in China, to support changes in common practices and foster collaboration in the wider stakeholder community and with citizens, and contribute to improved reciprocal knowledge on urbanisation processes between the EU and China
- Document the Living Lab outcomes, the experiences of the stakeholders and the performance of the various processes used, to enable learning by project partners and stakeholders
- Analyse the outcomes of the ULLs to extract recommendations and guidance for others
- Gathering additional feedback from the partners and stakeholders involved in the ULLs through additional interviews and storytelling

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 770141.

TRANS-URBAN-EU-CHINA

Transition towards urban sustainability through socially integrative cities in the EU and in China

Nordic Edge China Session

URBAN LIVING LAB AN EFFECTIVE TOOL FOR SOCIAL INCLUSIVE CITY TRANSFORMATION IN NORDIC AND CHINA

Time: 23rd Sep 2020 or 24th Sep 2020

Duration: 1.5 hours

Formality: online workshop (Nordic Edge will provide digital platform soon)

Target group: scholars, municipality managers/decision makers, city organizations, urban authorities, real estate developers, public service providers and citizens

CONCEPT

This session analyses how urban living labs may be used as instruments of open innovation. The analysis is based on on-the-ground experiences with urban living labs in China (in the cities of Wuhan, Tianjin and Jingdezhen), in close interaction between local stakeholders with European and Chinese experts. These experiences were paired with desk research, local stakeholder workshops and Sino-European expert workshops, in order to better understand the challenges that were identified in the urban living labs, and to explore pathways towards solving these challenges. Based on these methods, open innovation-based principles are discussed for urban living labs to function as meeting arenas to support communities' diversity, significance and connectedness, where participants can experiment with practical ideas and solutions towards more a cohesive, inclusive and sustainable every-day life.

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 770141.
